Subject Index

Achievements, students', senior teacher's role 13
Admission, medical college test, predicting residency performance 512
United Kingdom, structural model of background factors 181
see also Selection
Anaesthesia, attitudes of 1984 medical graduates, Sri Lanka 60
computer-assisted learning, medical student attitudes 57
Anatomy, self-teaching programmes, application of fibre-optics 23
students, visual memory and auditory recall 516
Anxiety, preclinical, stress associated with *viva voce* examination 274
Attitudes, to death and dying, fear in medical students 502
educational objectives at therapeutic consultation 307
house officers', towards terminal care 507
medical students', to old people and career preference, two universities compared 498
patients', to student doctors 314
Auditory recall and visual memory, anatomy students 516
Author location, effect on MEQ results 318
Authoring systems, for medical education, computer-assisted medical instruction 417

Behaviour therapy, teaching to psychiatrists with structured learning format 148
Type A, change, among medical students, 4-year longitudinal study 176
Behavioural sciences curriculum, planning and integrating 28

Cadaver workshop, teaching medical procedures 407
Career, attitudes, preclinical medical students, to medical specialties 286
preferences, 1984 medical graduates, Sri Lanka 64
medical students' attitudes to old people, two universities compared 498
CASE, distance-learning programme for general practitioners, role of general practitioners in its development 79, *abs*
Child health, community-based teaching, constraints in the introduction 75, *abs*
